Show Details

Kim and Sarah,

Key Environmental (KEY) today received EPA's approval of the Work Plan for the CERCLA Removal Order at the Standard Chlorine Site. Under the AOC, receipt of EPA's approval of the Work Plan obligates the Respondents to begin implementation of the Work Plan within 10 days.

The Respondents intend to have KEY implement the Work Plan. However, to date, we have not received EPA's approval of the designations of Jim Zubrow from KEY as Project Coordinator and of KEY as the Project Contractor. As you can imagine, it will be difficult to move forward with Work Plan implementation without knowing that our contractor is deemed acceptable to EPA.

Can you advise whether EPA has already issued the approvals of the Project Coordinator and Project Contractor designations or plans to issue those approvals in the next several days?

If you do not expect those approvals to be issued in the next several days, can EPA either:

(a) agree to an extension of the time frame for implementation of the Work Plan so that Respondents are required to begin implementation of the Work Plan 10 days from receipt of EPA's approval of both the Project Coordinator and the Project Contractor designations; or, alternatively

(b) agree that Respondents may have KEY begin implementation of the Work Plan on the original 10 day schedule pending EPA's formal written approval of the Project Coordinator and Project Contractor designations?

Thank you very much for your assistance,

Chip

**Subject:** SCCC Site: Designation of Project Contractor, AOC CERCLA Index #02-2010-2012

Kim, Ed & Sarah,

Please find attached Respondents' designation of a Project Contractor under Paragraph 39 of the above-referenced AOC.

Regards,

Chip
